

# National GAP User Symposium

Friday 7 July 2017, 9am – 4pm, Birmingham

Increased awareness and improved antenatal detection of pregnancies at risk due to fetal growth restriction have led to the recent year-on-year reduction in ONS stillbirth rates to their lowest ever levels.

Over 80% of NHS Trusts and Health Boards already use the Growth Assessment Protocol, or are in the process of implementing it. Clinical teams in many units have put in considerable efforts. Yet much more can be done, and we need to ensure that prevention programmes are as effective as possible.

Therefore, as GAP enters its 5<sup>th</sup> year, we would like to invite you to this special symposium with a multidisciplinary faculty of speakers. The aim is to take stock, share best practice, recognise local achievement, and identify ongoing challenges and their solutions.

## Who should attend?

GAP leads and all midwives, obstetricians /MFM specialists, neonatologists, ultrasonographers and other professionals tasked with delivery of safe maternity services.

**Topics to date:** (detailed programme to follow).

- SGA referral and detection rates: regional trends, national benchmarks
- Auditing the Fetal Growth element of NHSE Saving Babies' Lives care bundle
- Best practice examples for overcoming local challenges
- Special cases: macrosomia; fetal growth in twins
- GAP SCORE missed case audit: lessons learnt and practical solutions
- Introducing the new third trimester growth scan QA tool
- Update on HEE funded ultrasound training and evaluation
- Hypoglycaemia screening: new evidence for defining 'SGA'
- GAP-Plus: integration with maternity information systems to reduce double entry

Generous time will be available for Q&A and discussion in each session.

Please submit any **additional topics** you wish to have covered to [gap@perinatal.org.uk](mailto:gap@perinatal.org.uk)

**Venue:** Birmingham Conference and Events Centre [www.thebcec.co.uk/](http://www.thebcec.co.uk/) - directly opposite to Birmingham New Street ('Grand Central') Railway Station, and next to Bullring and NCP Car Parks
