

**GAP 2020 Vision**  
 Wednesday 11<sup>th</sup> March 2020  
 Birmingham

We are pleased to invite GAP users to a full day workshop in preparation for the implementation from April 2020 of the Saving Babies' Lives Care Bundle v2.

The Growth Assessment Protocol is an integral part of maternity services in 4 of 5 Trusts & Health Boards across the UK. It helps users make a difference, with demonstrable improvements in the quality of care and the year-on-year reduction in ONS stillbirth rates. To assist with the introduction of SBLv2, we have produced, after wide consultation, the new GAP Care Pathway which can address the upcoming challenges through training and phased implementation. The main purpose of this meeting is to explain and discuss the new care pathway and to demonstrate the exciting new GROW software which will allow auto-plotting of measurements and prompting of referrals.

**Programme Outline** (details to follow):

- 2019 National Report
- New GAP Care Pathway – Phase I & II
- Tools and Training for Implementation
- Update on Audit and Reporting Functionality
- Demonstration of new GROW Software

**Who should attend?** GAP lead midwives and obstetricians/MFMs;  
 other professionals tasked with delivery of safe maternity services.

**Time:** 10:00 – 16:00 (Registration from 09:00)

**Venue:** Birmingham Conference and Events Centre [www.thebcec.co.uk](http://www.thebcec.co.uk)  
 directly opposite New Street Station and next to Bullring and NCP Car Parks.
